Public Health Out Loud Virtual Event

Friday May 5th, 2023 | 8:00 AM - 12:00 PM EST | Live on Zoom

Program Overview

The Public Health Out Loud Grand Rounds Spring CME Event will bring together our familiar hosts, Dr. Chan and Dr. Bornschein, to discuss topics of ongoing importance such as COVID-19 (wastewater surveillance, sentinel sites, and the newest CDC guidelines), and hepatitis C elimination efforts throughout the state. Additionally, experts from across Rhode Island will discuss other ongoing and emerging public health issues such as sexually transmitted infections, antimicrobial stewardship, and the clinical management of opioid use disorders.

Learning Objectives

At the conclusion of this event, participants should be better able to:

- Describe newest CDC guidelines related to COVID-19
- Implement Hepatitis C elimination efforts in their practice
- Describe the most recent sexually transmitted infection statistics in Rhode Island and how this impacts their patients
- Become aware of the Antimicrobial Stewardship Program and how it can be leveraged in their practice
- Gain new skills in the clinical management of opioid use disorders

Target Audience

Rhode Island based physicians, nurses, psychologists, and social workers.

Continuing Education Credit Designation:

- 4.00 AMA PRA Category 1 Credit™
- 4.00 ANCC
- 4.00 APA
- 4.00 Social Work

RI Specific CME Licensure Topics

This activity qualifies for 4 hours of risk management credit and .45 hours of antimicrobial stewardship credit.
